

Electric Vehicle Utopia ... Yup ... Zero Carbon Footprint

One more thing...

If your electric car runs out of power on the interstate, do you walk to a charging station to get a bucket of electricity?

Another load of electric car fuel headed to the power plant.

So when these Electric Car's batteries overheat and burst into flames, is it still considered a zero emissions car?
- Asking for a friend.

My day is complete. A gas powered generator for an electric car.

These cartoons are really good. Not funny perhaps, but true -- excellent examples of the deception being pushed on unthinking, unaware Americans who have more votes than those of us with our eyes open.

As one email respondent commented: "Just exporting pollution to some other location which generates the electricity for charging. Add the impact on pavements from the extra vehicle weight from batteries -- and of course no gas tax paid for road maintenance. What could go wrong with this?"

There is so much wrong with this electric vehicle push! Bad premise -- global warming or climate change is a threat to our lives -- LIE! Electric vehicles are "clean" -- LIE! Carbon-based fuel pollutes the atmosphere. -- LIE! Electric vehicles are economic and practical. -- LIE! CO₂ is evil. -- LIE!

As more and more lies are flung at us and deception aimed at suckering us, we must be awake and alert to it all. And of course, the best defense against the atmosphere of untruth is to connect to the only real source of Truth, God Himself, Who, by His Holy Spirit gives us ears to hear, and sound eyes to be able to distinguish Truth from falsehood, and good from evil!

Linda Gommel

This is a picture of an Electric car charging station that is popping up everywhere. Here's an interesting fact . . . That 350kw generator uses 12 gallons of diesel fuel per hour, and it takes 3 hours to fully charge a car to get 200 miles. That's 36 GALLONS for 200 MILES!!! 5.6 mpg.
Proof that you can't fix stupid . . .

In seven years, you'd save \$4,700 on gas. That's \$670 a year. The average electric vehicle costs \$56,437. So in just 84 years, you'll make your money back!

TheBlaze @theblaze · 4h

Pete Buttigieg wants people to simply buy an electric car so they don't have to worry about rising gas prices.

That did not take long . . . Not long at all!

Traffic backs up all the San Francisco-Oakland Bay Bridge toll plaza along Interstate 80 in Oakland, Calif., on July 25, 2019. (Justin Sullivan/Getty Images)

NORTHERN CALIFORNIA PROBLEM
With Its Power Grid Under Pressure, California Asks Residents to Avoid Charging Electric Vehicles

LVEDA Meeting

(Lucerne Valley Economic Development Association)

Important Meeting!

Note Date: **Monday, July 31**
(No longer the first Monday of the month)
5:00 pm at the Moose Lodge
on Foothill Road, just west of Tradepost Road.

- **Dawn Rowe, our County Supervisor will be attending!** She will discuss county issues, how they affect us and our communities, and what we need to do.
- **Tom Lackey, our State Assemblyman will be attending!** He will discuss state issues, how they affect us and our communities, and what we need to do.
- **San Bernardino Sheriff Shannon Dicus** on how the sheriff's department and Lucerne Valley are doing. This is your chance to see three of our important elected officials. Let's show our support for the jobs they are doing.
- Probably **Code enforcement**
- Reports from **other representatives.**
- Report on the fireworks show.
- What's happening in Lucerne Valley from our local organizations.

Look for the CCR (Consumer Confidence Report) on our water system online at LucerneValleyMarket.com.

TOWN CLEAN-UP Saturday, July 22

for Lucerne Valley Residents

HOUSEHOLD HAZARDOUS WASTE COLLECTION

9 a.m. to 12 p.m.

Behind Lucerne Valley Fire Station
33269 Old Womans Spring Rd
(Enter through gate on Ladera Rd)
