

by Bill Lembright

Followers of God and His Son, Jesus Christ, have a duty to yield to the leadership of the Holy Spirit in their lives. At the same time, American patriots have a duty to protect this most unique republic which was created by a group of men who asked God for help to create a form of government FOR the people and BY the people. Our American forefathers faced seemingly unbeatable odds as they fought the world's superpower of their time, the British Empire, whose king was taxing his American subjects mercilessly. But with God's help, our ragtag troops won our independence.

Now a darkness is spreading across the world. Militant communist countries like China, North Korea, and Russia, are joining ranks with militant Islamists like Iran, Yemen, Sudan, Turkey, Hezbollah, Hamas, ISIS, the Taliban, and noticeably with the Left in the western world which was for centuries the bastion of Christianity. Satan is the ruler of the powers of darkness. GOD is his arch enemy Whose influence he is systematically trying to eliminate from the world. As long as God was the center of western culture including the United States, the axis of evil mentioned above was not strong enough to conquer and subdue the free world. But now that has changed. Over the last hundred years the Left has infiltrated our institutions and now tightly controls our government, schools, the media, big business, the entertainment industry, our legal system, and increasingly our religious institutions.

Now that the Left owns and controls the media, millions are being brainwashed that godless socialism is wonderful and that Christianity and capitalism are evil, bigoted, hateful, and selfish. That brainwashing has flipped reality so that what is right and true is being redefined as wrong and false, and that evil and lies are becoming accepted as enlightened truth.

That brings us to Tuesday, November 5. For several elections we've been warned that those elections might be our last as a free nation. That truth has only intensified as the powers of evil have become more dominant. We face an enemy that knows no shame, considers clever lying, cheating, stealing, character assassination, and actual assassination as commendable in their conquest of the world for a New World Order with a central government that controls ALL of humanity who then become the slaves of the ruling class.

A Remnant News article titled: "Some Christians Plan to Skip Voting." says:
Recent polls have revealed a significant trend among Christian voters, estimated in the millions, are not planning to participate

in the upcoming November election. This trend, attributed to disinterest in politics and dissatisfaction with candidates, could significantly impact the election's outcome. To abandon our right (and duty) to vote is to abandon our opportunity to influence the nation for good; therefore, it is an inexcusable dereliction of duty.

Our hope should never be in a presidential candidate or any other political leader. But we are called to action, not passivity, in the battle of good and evil. We are to be salt and light in a dark, destructive world. Yet many Christians...are (likely) abstaining from voting this election cycle, presumably because they do not like the options presented to them for candidates.

Abdicating our responsibility to influence our nation's selection of leaders only increases the likelihood that nonbelievers will choose our leaders, and we will all receive the judgment we deserve for allowing those who deny God and reject His will to lead us. We are wise to remember we often experience God's judgment in the form of leadership appointed to rule over us.

In the case of imperfect presidential candidates, select the "lesser of two evils" on single-issue choices that would disqualify a candidate (e.g., stance on abortion.)

Since the media is now the propaganda wing of the Left, let me summarize a few key points that may encourage those planning to sit on the fence to get down and vote. I gleaned many of these points from an Epoch Times article titled "Trump & Harris, A Policy Comparison."

On abortion, which is the murder of infants, Kamala is gung-ho to encourage mothers to sacrifice their inconvenient children under the mantra of "reproductive choice;" that is choice for the mother, not the infant! Trump is not against abortion, but plans to leave it up to the residents of each state to decide. So, Trump is the lesser of two evils.

When it comes to morality, Trump was a flirt and not a goody-goody two shoes, but Kamala is and was a prostitute who sells herself to the highest bidder. Trump, again, is the lesser of two evils.

Kamala is for open borders and eliminating citizenship requirements. She was a TOTAL failure as our "border czar" and avoided visiting the border to see the chaos and suffering. Trump is for border walls and enforcement, and legal immigration.

Harris is for elimination of fossil fuels, mandatory electric cars, and renewable energy, only. Trump is for freedom to choose which automobile to own and for competitively priced energy.

Trump pledges to reduce inflation by increasing American energy production, cutting wasteful government spending, and preventing illegal immigration and its HUGE drain on our resources. Kamala intends to establish government price controls on groceries to tackle inflation. We all know how that turned out in the Soviet Union with empty grocery shelves. She also intends to raise the minimum wage which will increase inflation and prevent youth from finding entry-level employment.

Trump intends to end the "weaponization" of government against its political foes, to appoint a commission to audit the efficiency of government agencies, to cut 10 government regulations for each new one implemented, and supports mandatory voter ID, paper ballots, proof of citizenship, and same-day voting in elections. Kamala supports passing the Freedom to Vote Act which would create automatic and same-day voting registration, increase vote-by-mail and early voting which will encourage voter fraud.

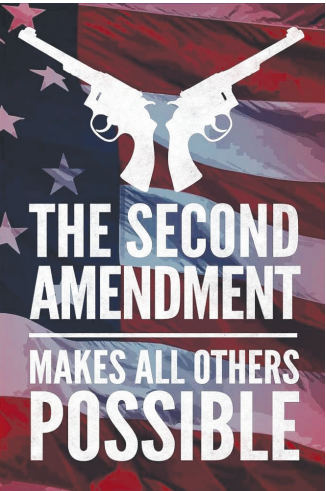

Trump plans to protect American workers and farmers from unfair trade practices, and seeks to ensure our immigration system puts American workers first. Kamala intends to expand paid family and medical leave which will incentivize people to work less.

Trump is a strong supporter of the Second Amendment and the right to keep and bear arms. Kamala is calling for a total ban semi-automatic rifles which the Left calls "assault weapons." She also vows to implement universal background checks for ALL firearm purchases so the government will know who has weapons and which ones they have. Remember, the Second Amendment was written to protect us from criminals and from a government that turns against its citizens.

Trump is for Israel and for peace through strength which leads to avoiding wars. Harris hates Israel, loves Palestinians and is in bed with those who sponsor endless wars and enrich the defense industry.

I encourage you to vote as your duty to God and country, and to vote for the lesser of two evils. May God help us. We don't deserve His help and mercy, but Father, please help us once again!
